## About Us

Wild Bee Florals is a heart project of Thanu and Aaron.

We design unforgettable moments for weddings, events, and everyday celebrations, while enchanting flower enthusiasts with immersive floral experiences.

We serve the Vancouver Island community and are available for travel.

### Committed to Sustainability

Our flower farm located in the Comox Valley enables us to cultivate the majority of flowers used in our designs. This approach allows us to offer a distinctive range of shapes and colours, resulting in a truly unique palette. When we source flowers externally, we always support local growers from BC.

Melanie Orr Photography

A woman with dark hair, wearing a white sleeveless dress with a button-down front, is standing in a lush garden. She is holding a bunch of white peonies. The garden is filled with various flowers, including purple and pink blooms. The background shows green foliage and a wooden fence.

Seasonal floral design x  
Local, regenerative agriculture

# Our Values

At our floral project, we hold a set of core values close to our heart that we aim to embody in everything we do.

## Seasonality

With each season comes a new opportunity to showcase the beauty of nature. From specialty tulips and ranunculus at the start of the year to delightful asters, dahlias, and heirloom chrysanthemums during the latter, we strive to add natural sparkle to every design.

## Community

Our passion for flowers extends beyond their beauty; we seek to forge connections between nature and our community. At our flower farm, you can immerse yourself in place-based learning experiences and join our collaborations with other creatives. Our aim is to craft joyful moments that foster a sense of belonging.

## Biodiversity

Our goal is to provide sustainable floral options while contributing to thoughtful consumerism. We enrich the environment by growing flowers without the use of pesticides/herbicides, practicing healthy soil management techniques, ensuring our packaging is compostable/recyclable, and establishing pollinator habitat.

## Transparency

We believe in transparency and are open about our entire process from seed sowing to delivery. Our staff are paid a living wage, and we strive to grow mindfully.

## Local, Regenerative Agriculture

We design with flowers primarily grown at our farm and supplement only from other BC growers, especially farmers in the Comox Valley - Vancouver Island. This helps reduce the distance that flowers travel, bringing you fresh and vibrant florals that feel good.

## Inclusivity

We welcome and love everyone, and strive to create a safe and inclusive space for all. Love is love.

“Our passion for flowers extends beyond their beauty; we seek to forge connections between nature and our community”

# Our Process

Farm to Event.

Grow . Design . Install . Fin.
